

M Sai Santosh.

UX Designer

About me

Results-driven UX Designer with **3+ years of experience** designing intuitive web and mobile experiences. Skilled in user-centered design, wireframing, prototyping, usability testing, and cross-functional collaboration to deliver scalable solutions. Proven ability to improve usability, streamline workflows, and maintain brand consistency. Passionate about using design thinking to create user-focused products that support business goals.

Experience

Tata Consultancy Services (Oct 2022-Present)

- Conducted heuristic evaluations and UX audits to identify usability gaps and improve workflow efficiency.
- Redesigned Customer internal platform, creating a user-centric dashboard and streamlined estimation workflows to boost visibility and reduce task time.
- Designed solutions for TM System (TMS) to enhance resource tracking and operational clarity.
- Created prototypes and design specs in Figma XD, validating ideas through iterative stakeholder feedback.
- Collaborated with cross-functional teams to align design goals with business objectives and ensure smooth implementation.
- Built scalable icons Library and its states and contributed to the Design System, ensuring visual consistency and accessibility.
- Delivered design presentations on Conversational AI and UX strategy to improve team collaboration and understanding.
- Used behavioral analytics and user feedback to optimize usability and overall user satisfaction.
- Stayed current with UX trends, accessibility, and IA best practices, applying them to enterprise design systems.
